Recordkeeping Checklist

Business Academy Group Learning · Recordkeeping

Key takeaways

1. **Separate your money.** A business account is the foundation of good records.
2. **One place, every time.** Pick one system for receipts and stick with it.
3. **Capture it now.** Snap receipts before you leave the store.
4. **30 minutes a week beats 3 days in April.** A small weekly routine prevents the year-end scramble.
5. **Records feed your budget.** Close out each month and update the Budgeting Tool before coaching.

Set up once

- ☐ Separate business bank account and card
- ☐ One home for receipts (folder or app), labeled with my Budgeting Tool categories
- ☐ Backup copy in a second place
- ☐ Home-based: time-space log and mileage log started

Every time

- ☐ Snap a photo of the receipt before leaving the store
- ☐ Write what it was for on the receipt
- ☐ Give and keep a receipt for every cash payment

Every week (30 minutes)

- ☐ Match receipts to the bank account
- ☐ File or scan everything
- ☐ Check attendance records are complete

Every month (by the 5th)

- ☐ Total income and expenses by category
- ☐ Check that records match the bank statement
- ☐ Update the Budgeting Tool with actuals
- ☐ Bring questions to coaching

Keep for at least 7 years

Income records, expense receipts, bank and card statements, tax returns, and home business-use logs. Confirm other time frames with your tax preparer and licensing standards.
