Time Management Checklist

Business Academy Group Learning · Time Management · July 2027

Key takeaways

1. **Know where time goes.** A one-week audit shows the real picture.
2. **Schedule what matters.** Important work like budgeting needs a set time.
3. **Batch and automate.** Group similar tasks and let tools handle repeats.
4. **Share the load.** Delegate what others can do.
5. **Protect your rest.** A rested owner makes better business decisions.
